

Each Night, St. Vincent Haven helps bring Hope from Hopelessness A Home For the Homeless

St. Vincent Haven is a 28-bed shelter serving homeless men from throughout Licking County. Twenty-five percent of our residents are veterans. Five percent are young men who have aged out of the foster care system. All are dealing with issues caused by unemployment, poverty and not having a home to go to at night. Many are self-medicating themselves with drugs or alcohol.

All share a sense of helplessness and hopelessness. Where will they get a job, where will they sleep tonight?

St. Vincent Haven is there to help. We provide safe shelter and caring support that assists our residents to obtain and maintain employment and move toward permanent housing — to get back on their feet.

Won't you help?

By participating in our Adopt a Night/Adopt a Bed Program, you bring back hope and help make a difference in someone's life.

You can adopt one or as many nights/beds as you choose. Adoption donations can be a one time event or in the form of a pledge of continuing support.
